NATIONAL SUN YAT-SEN UNIVERSITY

TAIWAN

Faculty Opening at the Institute of Environmental Engineering

The Institute of Environmental Engineering at National Sun Yat-Sen University invites applications for:

1. **Tenure-track faculty position** at the rank of assistant professor or associate professor. The applicant will be considered through the three-level teacher evaluation committee with the publications being evaluated by committees out of the school.
2. **Contract-based (non-tenure-track) faculty position** at the rank of assistant professor. The contract will be reviewed and renewed annually. The maximum length of contract is three years. Fresh Ph.D. within 5 years is preferable. Application for converting the status to a tenure-track position is available for those with an excellent performance during the contract period.

Applicants must have an earned doctoral degree of environmental engineering or science and relevant fields from a university officially recognized by the Ministry of Education, ROC, specialized in one of the following fields:

- (1) Position A: Waste management and treatment including urban mining (resource and energy recovery), environmental hazard and risk management of E-waste, sludge reduction and disposal, and new life for sewage sludge (nutrient and energy recovery).
- (2) Position B: Characteristics, sources, controls, and transports of gaseous and particular pollutants, and modeling of atmospheric dispersion and motion.

The application deadline is **15th of November in 2017**. The NSYSU is one of the first-class research-oriented universities in Taiwan. Successful candidates should possess a strong commitment and demonstrate potential for excellence in research, and establish collaborative research links with colleagues in the Institute. Documented commitment to excellence in teaching in English at the graduate level is required. **The application package including a cover letter** addressing the position of interest (Position A or B), **curriculum vitae** (including the academic and professional backgrounds, the title of Ph.D. dissertation, major professions, and academic honors, etc.), **copies of the Ph.D. diploma** (overseas academic degree must be officially recognized by an abroad unit of the Ministry of Foreign Affairs, ROC), **copies of the graduate transcripts, a publication list with a minimum of five publications in the recent five years** (please note impactor factor if the article is published in an SCI journal and specify

the first or corresponding author), **a statement of research and teaching interests** (including courses to be taught), **a representative publication in the recent five years**, and **three recommendation letters**, should be submitted to:
